

Site Finder Service

Helping Companies Find the Land and Buildings to Meet Their Needs

Overview

Massachusetts offers confidential Site Finder services for businesses seeking to expand or locate in the Commonwealth. This complimentary service enables companies to find land or industrial, office, research & development, distribution/warehouse, or flexible space to meet their needs anywhere in Massachusetts. A customized real estate information packet is prepared for each company request.

Advantages

The process allows companies the opportunity to obtain an overview of the market prior to engaging a real estate professional. The service can be helpful in coordinating site tours, conducting background research on real estate matters, and linking companies to appropriate resources throughout the state. The Site Finder Service is free, confidential, and covers locations throughout Massachusetts.

How It Works

A phone call, e-mail, or visit to www.massecon.com can start the process. After a company or its representative submits a Site Search Form containing information about the real estate requirement – from square footage and ceiling height, for example, to electric voltage and water pressure – a search will be performed throughout the state to identify sites that meet the company's criteria. Profiles of properties are transmitted electronically to the customer.

Eligibility

Site finding services are available directly to companies seeking to relocate or expand in Massachusetts, or to a company's exclusive broker. The company must be seeking industrial, R&D space, or a related use for a minimum of 10,000 square feet, or land to develop a minimum of 20,000 square feet.
